INFORMATION DISCLOSURE STATEMENT

Dear Sir:

The references listed on the attached form PTO-1449 relate to the subject matter of the present invention and are brought to the attention of the Patent and Trademark Office pursuant to 37 C.F.R. 1.56 and 1.98.

The references listed on the attached PTO 1449 were cited in the International Search Report of the corresponding PCT application No. PCT/EP03/007847. Applicant notes that reference EP 0 565 967 is not in the English language, and the English language abstract is provided. Applicant further notes that reference DE 10 97 895 is not in English, and the English abstract is unavailable. The DE 10 97 895 reference was cited in the International Search Report under Category A, meaning that, according to the examiner, the reference is not particularly relevant to the claims.

This statement is being submitted prior to a first office action on the merits. While this statement contains all the relevant information presently known to the applicant, it should not be interpreted as a representation that an exhaustive search has been conducted or that no other relevant information exists. Also, this statement should not be interpreted as a representation that any cited reference is prior art, or that any cited reference is "material to patentability" as defined in 37 CFR §1.56. The applicant invites the Examiner to make an independent evaluation of each cited reference to determine their relevance to the subject matter of the present application.

Finally, the applicant urges that the claims are patentable over the disclosed information.

Respectfully submitted,

Steven J. Grossman
